Golden Gate Park in Colored Pencil

Materials List

Instructor, Karen Bash

#B Graphite Pencil

#2 Black Micron Pen (#1 or #3 are also fine. You only need one pen.)

Kneaded Eraser

Hard All Purpose Eraser (You can use a pencil eraser or any other type of hard eraser. We will be using this for basic erasing and also fine adjustments, so it should have a sharp edge or point. You can always cut your eraser with a knife to make an edge)

Colorless Blender (This is a blender for colored pencils that comes in pencil form. It is optional.)

Paper Towels

Colored Pencils

- I will be using **Faber Castell Polychromos.** These are oil-based colored pencils. I will be blending and smearing the pencils and oil-based pencils do this easier than wax-based pencils. Check on the manufacturer website if you are not sure which kind you have or are buying. You do not need to use these particular pencils, just know you might not be able to get the exact effect that I do if you use wax-based pencils.

- The following colors are the basic ones I will be using, supplemented by a few other colors as needed. You are welcome to use whatever you have.

  light phthalo blue, cobalt blue, ultramarine blue, dark indigo, blue violet, light cadmium yellow, orange glaze, rose carmine, light green, permanent green, chrome oxide green, light yellow ochre, terra cotta, burnt umber, warm grey III, cold grey VI, ivory, white

9” x 12” White Drawing Paper

- I will be using **Strathmore Colored Pencil Paper, series 400**
